1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent 6,295,832 to Kato et al. Looking at FIG. 2 of Kato, one notices a heat exchanger (1), having a receiver tank (2) comprising of an end closure (21), a dessicant cartridge assembly (16, 17 and 23), said assembly having a retention clip located on the inside tube of the assembly (16A, FIG. 7) used to center it inside of the outer tube and also being able to be put together during the brazing process (col 9, lines 43-52). Said assembly also contains a filter member (22) being able to withstand the brazing process.
